

Cedar Creek Manor

Providing quality, personal care for the elderly

January 22, 2008

To Whom It May Concern:

My daughter and I have two homes for the elderly which were built two years apart. Although they are approximately the same square footage, the electricity cost was approximately \$450.00 or more per month in our newer home. I tried to get Wisconsin Public Service to do an audit, but they refused.

When we were presented with the KVAR option, I felt we had nothing to lose. Since the unit was installed, we saved more than the cost of the unit in the first month. We felt the savings to be substantial enough to install another unit in our first home and see what our savings will be.

Sincerely,

Cathy Fosick
Owner/Manager
